HISTORY

PowerHawke, Inc. is an experienced solutions provider for commercial electrical distribution systems. PowerHawke, Inc. was incorporated in 2012 as a means of consolidating engineering, assessment and testing services across the Phalcon companies to ensure operational safety and efficiency for low and medium voltage systems. Originally a division of McPhee Electric, Ltd., PowerHawke services have been offered for almost twenty years in the greater New England area. In May 2013, PowerHawke expanded services to the Greater Nashville market through Harlan Electric and in March 2015 to the Greater Baltimore / Washington DC region through JE Richards, both Phalcon companies.

INDUSTRY POSITION

Powerhawke is a member of Phalcon, Ltd, one of the largest privately owned electrical construction and service companies in the U.S. PowerHawke has developed and maintained a position in the New England market as a top provider of electrical engineering, testing and assessment services.

EXPERIENCE

PowerHawke engineers provide design assist and turnkey Engineer/Procure/Construct (EPC) services for the utility, power and energy sectors. Our engineers have also conducted several large scale arc flash hazard analyses and short circuit studies per NFPA 70E. Our engineers have also for the power and energy sectors. PowerHawke has completed thousands of visual code and infrared thermographic inspections for commercial, industrial and institutional properties in New England and TN.

SIGNATURE CAPABILITIES

Design Build/Design Assist

PowerHawke's engineering group has delivered utility, power and critical infrastructure projects that include broad competencies in system design, scheduling, procurement and trade coordination. Our full suite of CAD and BIM capabilities have been successfully deployed for power distribution, cable tray & telecom system design, cable schedules and complex vendor submittal reviews. Our team regularly provides turnkey emergency generator, ATS and infrastructure engineering and construction. Additionally, our team can implement turnkey lighting efficiency projects.

Engineering Analysis

Our coordinated field engineering team has completed over 5,000 Arc Flash Risk Assessment points for companies like Mohegan Sun Casino, Tilcon, Inc., and the Phoenix Life Insurance Company. Our electrical safety engineering services run the full breadth from field survey to engineering to training.

Energized / De-Energized Preventative Maintenance

Over the past 15 years our certified thermographers, technicians and licensed electricians, have completed thousands of inspections and NETA/NFPA tests for top companies like The Hartford Insurance Group, UConn/Rentschler Field, Nyala Farms Corporate Center, Cross Sound Cable Company, Nucor Steel and United Rentals. Our energized service offerings include infrared inspections coupled with detailed visual code inspections, power quality monitoring, predictive motor maintenance, generator testing and monitoring, and commissioning inspections.

LICENSES

Registered Professional Engineers (PE) in CT, RI, TN

COMPETENCIES

Primavera P6 Scheduling
Primavera Contract Manager (Expedition)
AutoCAD Revit Building Design 2013
AutoCAD Building Systems 2013
EasyPower 9.0.4.474tn
IRISS Certified Installer
Level 1 Thermographer

AFFILIATIONS

Federated Electrical Contractors (FEC)
International Electrical Testing Association (NETA)
National Fire Protection Association (NFPA)
American Society of Safety Engineers (ASSE)
Institute of Electrical and Electronics Engineers (IEEE)

KEY DATA

General Liability Insurance - \$2M / \$4M primary coverage
Excess Liability Insurance - \$25M limit
Professional & Pollution Liability Insurance - \$5M limit
Workman's Compensation Insurance - \$1M statutory coverage

BANKING
