

# Connecticut Children's Medical Center

PowerHawke, Inc. is providing Connecticut Children's Medical Center in Hartford, CT, with a full arc flash risk assessment for their facility starting in 2015.

In accordance with the 2015 Edition of NFPA 70E, PowerHawke will complete a complete field survey, documentation and inspection of each piece of switchgear, MCC, disconnect, switch, and panel in the system down to the 208/277V level. Including with the AFRA is installation of labels or tags indicating boundaries, incident energy levels at each piece of equipment, and on-site training of electrical staff at the conclusion of the entire assessment.

Connecticut Children's Medical Center is a nationally recognized, 187-bed not-for-profit children's hospital serving as the primary teaching hospital for the University of Connecticut School of Medicine department of pediatrics.
